

2007 DURANGO

The refreshed and redesigned 2007 Dodge Durango is the perfect vehicle for anyone who wants solid performance with utility, versatility, safety, and a brash sense of style. It's tough, muscular, and distinctively styled with an incredibly spacious and flexible interior, plus a powerful line of engines to get you on the go!

Check out the bold look and powerful performance of Durango

ENGINE

Horsepower. Once you get some, you always want more. That's why Durango features the available 5.7-liter HEMI® V8 engine with Multi Displacement System and a best-in-class* 335 horsepower and a 370 lb-ft of torque. Other engines and features:

- 4.7-liter Magnum® V8 with available Flex-Fuel Capability†
- 3.7-liter Magnum® V8 engine provides 210 horsepower and 235 lb-ft of torque
- Choice of four- or five-speed automatic transmissions

**Based on 2006 Automotive News classification. When properly equipped*

†Contact your authorized Chrysler, Dodge, or Jeep dealer to verify your vehicle's flex fuel (FFV) compatibility

HEMI is a registered trademark of DaimlerChrysler Corporation.

TOWING AND HAULING

You can pack plenty inside Durango's 102.4 cubic feet of cargo volume and up to 1,750 pounds of payload. Want more? The optional HEMI® V8 engine gives you best-in-class* 8,950 pounds of towing capability. Or opt for one of two other powerful engines:

- 3.7-liter V8 3,800 pounds maximum towing capacity
- 4.7-liter Magnum® V8 6,050 pounds of towing capacity

**Based on 2006 Automotive News classification. When properly equipped.*

HEMI is a registered trademark of DaimlerChrysler Corporation.

SMOOTH RIDE

To get a really smooth ride out of most vehicles you need to pay more to get a better suspension system. With Durango, the smooth ride comes standard. That's because every Durango features a long wheelbase and wide track, a coil-sprung solid-axle rear suspension with a Watt's linkage to control lateral motion, rack-and-pinion steering, torsion bar independent front suspension, and a hydroformed box-section frame for added stiffness.

FIVE STAR SAFETY

Because Dodge vehicles are all about putting safety and security first, 2007 Dodge Durango comes standard with advanced multistage drive and front-passenger air bags* and supplemental side-curtain air bags* that cover all three rows of seats and including roll-sensing technology front additional side-impact protection. The big idea: keeping you safe and sound; all around.

The 2007 Dodge Durango earned a five-star safety rating—the government's highest—for both driver and front—passenger safety in frontal crash test.

**Always sit properly in the seat with the seat belt fastened.*

INTERIOR CONVENIENCES

You'll feel right at home inside Dodge Durango—even if you feel most at home when driving out on the range—because this SUV was designed to be all about you. Dodge Durango gives you luxury, comfort style, and absolute utility with best-in-class* eight passenger seating, optional heated seats, power adjustable pedals and more.

** Based on 2006 Automotive News classification. When properly equipped.*

STORAGE

Moving companies won't have the same clout after seeing the Durango's 102.4 cubic feet of cargo space. The second and third rows of seating fold flat into the floor, creating a four-foot-wide rear opening and a maximum payload of up to 1,750 pounds.*

** When properly equipped.*

VIDEO

Getting the show on the road has always been a production. Until now. An easy-to-use DVD rear entertainment system (also plays CDs and mp3s) with a clear, 7-inch active matrix screen is available on Limited and SLT "G" package.

AUDIO

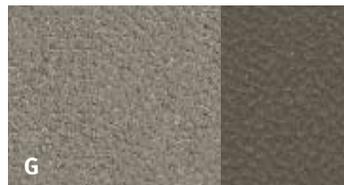

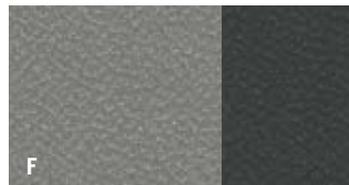

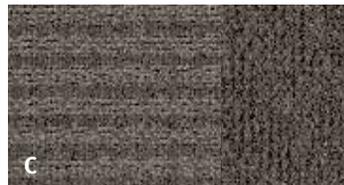

Durango's sound system lineup features an AM/FM/six-disc integrated CD/mp3 changer (optional on SXT, SLT, and Adventurer, standard on Limited) and a 368-watt eight-speaker Alpine sound system (optional on SLT, standard on Limited). It has enough juice to make your home stereo play the blues. Plus, an available GPS navigation radio on Limited provides turn-by-turn directions with full-screen map displays, automatic reroute calculation, compass heading, and more..

ALL-WHEEL DRIVE

Two available all-wheel-drive (AWD) electronic shift transfer cases—single speed and two speed—are engaged at all times and controlled by a switch on the instrument panel. Both provide traditional part-time four-wheel drive for maximum traction on slippery surfaces. Best of all, standard full-time AWD "set-it-and-forget-it" is always there when you need it.

INTERIOR

Standard on SXT: A) Medium Slate Gray Mesa/Kristy Cloth (interior shown upper left)

Standard on SLT: B) Medium Slate Gray Avondale and Racine Cloth with YES Essentials® Seat Fabric* (also standard on Adventurer; interior shown upper right) or C) Medium Khaki Avondale and Racine Cloth with YES Essentials Seat Fabric*

Standard on Limited: D) Slate Gray Two-Tone Torino Leather-trimmed with Preferred Suede® Microfiber seat inserts† or E) Khaki Two-Tone Torino Leather-trimmed with Preferred Suede Microfiber seat inserts† (interior shown bottom right)

Optional on SLT: F) Slate Gray Two-Tone Torino Leather-trimmed† (also optional on Adventurer) or G) Light Graystone/Medium Khaki Two-Tone Torino Leather-trimmed† (interior shown bottom left)

*Not compatible with aftermarket fabric-protecting coatings.

†First and second rows only.

YES ESSENTIALS is a registered trademark of Milliken & Company.

⁽¹⁾4x2 models only. ⁽²⁾4x4 models only. ⁽³⁾Customer has a choice between one of six Thule® carriers or a Dodge Adventurer Kit. ⁽⁴⁾Not compatible with aftermarket fabric-protecting coatings. ⁽⁵⁾Includes one-year subscription provided by SIRIUS; only in the continental U.S. ⁽⁶⁾Always use seat belts. Children 12 and under should always be in a backseat correctly using an infant or child restraint system, or the seat belt positioned correctly for the child's age and weight. ⁽⁷⁾No system, no matter how sophisticated, can repeal the laws of physics or overcome careless driving actions. Performance is limited by available traction, which snow, ice and other conditions can affect. When the ESP warning lamp in the speedometer flashes, the driver needs to use less throttle and adapt speed and driving behavior to prevailing road conditions. Always drive carefully, consistent with conditions. Please always wear your seat belt. ⁽⁸⁾Always check entire surroundings before backing up.
