2011 Mazda6

*MAZDA 6—TESTED, TESTED,
RETESTED AND TESTED AGAIN.*

During its rigorous development, some 400 Mazda engineers subjected crucial MAZDA 6 components to testing that simulated 10 years of extreme use. Then, to further prove its reliability, they drove a fleet of MAZDA 6 test cars for a total of more than one million miles.* In fact, by the time you see a MAZDA 6, it will have survived a demanding gauntlet of quality control standards that are among the strictest in the industry. Hundreds upon hundreds of individual inspections are conducted by an army of Mazda inspectors. Each one empowered to reject any part, fit, detail or component that fails to measure up. Because from the smallest interior switch to the virtually flawless exterior finish, quality is an obsession at Mazda. Which is why, as you lose yourself in the pure driving fun of a MAZDA 6, you can be confident that Mazda durability and attention to detail will be there for you. Today. Tomorrow. And many years down the road. Zoom-Zoom.

* Test fleet of preproduction MAZDA 6 vehicles covered over one million miles during product development testing.

*WIND COMES FROM EVERY DIRECTION.
SHOULDN'T THINKING?*

Wind turbulence and drag are the enemies of performance. They compromise responsiveness and stability. Undermine fuel economy. And disrupt a quiet ride. We were determined to defeat their fun-spoiling ways when we designed the MAZDA 6. We subjected it to 360 degrees of wind tunnel testing. Applying what we learned front to back, side to side, top to bottom. We even added an innovative system of underbody shields and deflectors to manage airflow. The well-honed results: A performance-enhancing, fuel-friendly coefficient of drag (0.27 Cd) that's lower than Accord or Camry. And sophisticated styling that's beautiful from every angle.

1

2

1 Purposefully sculpted outside mirrors and sleek A-pillars help significantly reduce the amount of air turbulence and drag that the MAZDA 6 generates at speed. 2 Extensive wind tunnel testing inspired Mazda engineers to endow the MAZDA 6 with a remarkably aerodynamic windshield rake of 26 degrees, an advanced underbody airflow management system and, ultimately, a more aerodynamically efficient exterior design than Accord or Camry. Even the highly refined roofline, rear window and trunk lid of the MAZDA 6 play important roles in helping minimize air turbulence, drag and wind noise—resulting in a quieter cabin and improved fuel efficiency.

DRIVERS, CHOOSE YOUR ENGINES.

Two very powerful reasons to drive a MAZDA6 eagerly await your command. The first, a potent 272-hp 3.7-liter DOHC V6 that propels the MAZDA6 s, utilizes variable valve timing to both optimize performance and deliver impressive fuel efficiency. As well as provide more power and torque than Accord or Camry. The second, a spirited, yet fuel-efficient, 170-hp* 2.5-liter DOHC 4-cylinder—also with variable valve timing—powers all MAZDA6 i models. And with the available automatic, delivers a remarkable 31 mpg highway/22 mpg city.† So make your choice. Either way you go, you'll get the power and fuel efficiency you demand. And the rush of adrenaline you deserve.

1 An advanced 272-hp 3.7-liter DOHC V6 with variable valve timing is standard on all MAZDA6 s models—as is a 6-speed Sport AT automatic. The result is an incredibly responsive and remarkably smooth powertrain that delivers a responsible 27 mpg highway/18 mpg city.† **2** A 6-speed Sport AT automatic transmission is also standard on MAZDA6 s models. It combines the convenience of an automatic with the added control—and fun—of a manual-shift mode. A 5-speed Sport AT automatic is standard on MAZDA6 i Touring, Touring Plus and Grand Touring and available on the Sport model. **3** A slick-shifting 6-speed manual gearbox is standard on the MAZDA6 i Sport model. Multiple-cone synchronizers in the first four gears help ensure smooth and precise performance. **4** A spirited, yet fuel-efficient, 170-hp* 2.5-liter DOHC 4-cylinder, also featuring variable valve timing, is standard on all MAZDA6 i models. Equipped with the available 5-speed Sport AT automatic, it delivers a pump-friendly 31 mpg highway/22 mpg city.†

* 168 hp (PZEV).
† EPA estimated mileage. Actual results may vary.

BUILT FROM THE SPORTS CAR UP.

Mazda's sports-car heritage really comes out to play in the MAZDA 6. Control and handling are quick, agile and responsive. Courtesy of the dialed-in precision of its engine-speed-sensing variable-assist rack-and-pinion steering system. To further enhance the driving fun, a sophisticated 4-wheel independent suspension pairs a responsive double-wishbone design up front with an advanced multilink design at the rear. As with every Mazda, safety engineering goes hand in hand with performance engineering in the MAZDA 6. So to help ensure uniformly linear and fade-resistant stops, power-assisted 4-wheel disc brakes, Anti-lock Brake System (ABS) and Electronic Brakeforce Distribution are standard on MAZDA 6. Also standard are a Traction Control System and Dynamic Stability Control. They all work seamlessly as one to deliver the most important standard feature of all: Driver confidence.

1 Front ventilated disc brakes, coupled with solid rear disc brakes, are standard on all MAZDA 6 models and promote linear, fade-resistant stopping power. Also standard are an Anti-lock Brake System with Electronic Brakeforce Distribution. A Traction Control System to enhance acceleration and improve traction in difficult driving conditions. Plus Dynamic Stability Control* to help provide predictable, stable handling in emergency situations. **2** A sophisticated 4-wheel independent suspension system plays a crucial role in the exceptional handling and superb road manners that every MAZDA 6 is engineered to deliver. The system combines a double-wishbone design up front with an advanced multilink setup at the rear. Stabilizer bars, fore and aft, help to significantly reduce body roll.

* Dynamic Stability Control (DSC) is an electronic system designed to help the driver maintain control under adverse conditions. It is not a substitute for safe driving practices. Factors including speed, road conditions and driver steering input can all affect whether DSC will be effective in preventing loss of control. Please see your owner's manual for further details.

1 Mazda's Blind Spot Monitoring System is an innovative radar-based driver-warning system that's standard on all MAZDA 6 Touring Plus and Grand Touring models. Whenever its dual, rear-facing sensors detect a vehicle (or other object) within the driver's left or right blind spot, the system calculates its relative speed and distance—then warns the driver. 2 An in-mirror warning light appears in the appropriate side mirror to visually warn the driver of an approaching vehicle or object. If the driver signals a lane change, the warning light also blinks, and a cabin warning chime sounds.

*NATURE GAVE YOU EYES IN FRONT OF YOUR HEAD.
WE GIVE YOU A COUPLE MORE IN THE BACK.*

In traffic, as in nature, the fittest survive. That's why we made an ingenious, radar-based Blind Spot Monitoring System* standard on both the MAZDA 6 Touring Plus and Grand Touring models. The system is both simple and automatic. Sensors in back detect objects in your blind spot. A warning light in your mirror—accompanied by a chime in the cockpit—instantly alert you. Danger is averted. And you journey safely on. You won't find this innovative technology on Accord or Camry. But maybe that will change when they realize it's a lot more reliable than "Honey, can I get over?"

* Always check your mirrors. Be aware of the traffic around you.

DRIVER'S SEAT? SENSORY STIMULATION CHAMBER WOULD BE MORE ACCURATE.

Yesterday's tired terminology doesn't do justice to the cockpit in the MAZDA 6. Starting with the available Mazda Advanced Keyless Entry, you immediately sense a very driver-centric experience about to happen. Once inside, the MAZDA 6 Grand Touring cradles you in an 8-way power-adjustable driver's seat that's leather-trimmed and heated. Dramatic electroluminescent gauges and automatic climate control with dual zones amp up both style and comfort. A Multi Information Display (MID) screen conveniently includes the helpful rearview camera. The leather-wrapped steering wheel features controls for audio and cruise control, plus Bluetooth® functions. While its standard tilt and telescopic functions help you achieve your perfect driving position. Add the available Tech Package, and the driver's seat adjusts automatically to your preset driving position as you open the door. Rearview and driver's outside mirror are auto-dimming. The headlights feature an auto on/off setting. Even the engine fires up simply with the touch of a button—thanks to Mazda's keyless Push Button Start System. And all as you happily realize that a driving experience that's rare even in pricier sport sedans is only just beginning.

1 Push Button Start is just one of many compelling features in the available Technology Package offered on both MAZDA 6 Grand Touring models. **2** Convenient steering-wheel-mounted controls on the MAZDA 6 Touring allow you to manage the functions of everything from the audio system and cruise control to the Bluetooth hands-free phone and audio capabilities. **3** Mazda's Advanced Keyless Entry & Start System enables you to remotely unlock or lock all four doors, open or close the front windows and moonroof, or even start the engine without inserting a key. Offered on both MAZDA 6 Grand Touring models as part of the available Technology Package.

HANDS-FREE JUST ABOUT EVERYTHING.

The advanced technology in MAZDA 6 Grand Touring doesn't ask your hands to do all the work. For instance, the available voice command in-dash nav system responds directly to your voice, thanks to its multicommand audio memory. One finger controls the in-dash, 7-inch touch-screen LCD display, which also doubles as a command center for the standard in-dash 6-disc CD changer. And there's plenty more to keep your ears busy: MAZDA 6 is first in its class to offer Bose® Centerpoint® Surround Sound.* And Bluetooth® hands-free phone and audio connectivity are standard, so you can wirelessly enjoy music from any compatible MP3 player or cell phone. An impressive network of high-tech everything. Meanwhile, your hands remain free to do the things hands would rather do. Like drive.

1, 2 Bluetooth hands-free phone & audio capabilities, standard on the MAZDA 6 Touring, Touring Plus and Grand Touring, allow you to conveniently make calls, access voice mail and even listen to music—all hands-free—via your Bluetooth-compatible cell phone and/or MP3 player. 3 A Bose 10-speaker Centerpoint Surround Sound System, standard on the MAZDA 6 Grand Touring, creates stunning 360° synthesized surround sound music from regular CDs. Neodymium speaker magnets plus an Nd® subwoofer help to optimize sound output while also minimizing space and weight. 4 A voice command, in-dash navigation system is available on MAZDA 6 Grand Touring. Its multicommand memory and in-dash, touch-screen LCD display not only make navigation quick and easy, the display integrates a rearview camera display to make backing up safer. And the versatile touch-screen display doubles as a command center for the standard in-dash 6-disc CD changer and Bose Surround Sound System.

LET'S TALK CABIN SPACE... SPACE... SPACE...

The cabin of the MAZDA 6 represents a huge departure from what you'll find in typical sports sedans. By virtually every meaningful measure. With more passenger room than Camry. And even more rear-seat legroom than Accord. In fact, Mazda designers looked for every opportunity to ensure that its cabin is as compelling as its performance. The innovative Welcome Lighting System activates as you enter, progressively illuminating your surroundings and setting the perfect driving mood. For passengers, extra touches of fit, finish and comfort abound, courtesy of insightful Mazda engineering. Designers even "tuned" the dimensions of both the headliner and rear-seat cushion to maximize rear-seat headroom. The result is a remarkably comfortable, quiet and accommodating interior for five. So whether you occupy the driver's seat, the front seat or the back seat of a MAZDA 6, you'll find it easy to echo its praises.

1 A versatile 60/40 split fold-down rear seatback, with remote releases, is standard on every MAZDA 6. For hauling larger, longer or more oddly shaped cargo. **2** A center console with dual storage compartments and a sliding armrest is standard on all MAZDA 6 Touring, Touring Plus and Grand Touring models. As are two handy 12V outlets for powering your favorite MP3 player, cell phone or laptop.* **3** The MAZDA 6 boasts a cavernous trunk that provides more cargo room than Camry or Accord. In fact, its generous 16.6 cu ft of space can easily swallow four standard suitcases.

* Apple® iPhone® shown. Apple and iPhone are registered trademarks of Apple Inc.

Please remember to properly secure all cargo.

*THE BEST WAY TO BUILD CONFIDENCE
IS TO BUILD IT IN.*

Beneath all the stunning beauty of MAZDA 6, is an equally beautiful network of dynamic safety engineering. Designed to help you avoid trouble by instantly, almost intuitively, responding to your input. Its precise rack-and-pinion steering and fully independent suspension help enhance driver control, handling agility and ride comfort. And for optimum stopping power, it features fade-resistant 4-wheel disc brakes with ABS and Electronic Brakeforce Distribution. Also standard are its Traction Control System and Dynamic Stability Control.* And its extensive front and rear crumple zones, which help absorb and diffuse energy should a collision occur. Safety engineering on the MAZDA 6 proves there are more ways than one to build driver confidence.

1 LED rear combination taillights are also available on Grand Touring models. Three of the most significant benefits of LEDs (light-emitting diodes) are brighter illumination, improved reliability and a longer service life **2** Dual front air bags, front side-impact air bags and side-curtain air bags with rollover protection for front and rear seats come standard on all MAZDA 6 models and provide extra protection in case of a collision or rollover.† **3** Mazda's "Triple H" construction system adds extra steel reinforcements to critical body areas—from floor pan to roof—enhancing the structural integrity, impact protection and handling of every MAZDA 6.

* Dynamic Stability Control is not a substitute for safe driving practices.
† Always wear your seat belt and secure children in the rear seat in appropriate child restraints.

*THE FEELING HAS ALWAYS BEEN IN YOU.
AND ONCE AGAIN, MAZDA BRINGS IT OUT.*

We know all about the feeling. The desire in you to recapture the exhilaration of pure motion you've known as far back as you can remember. We know because delivering that feeling in a car is what motivates every Mazda engineer. And MAZDA 6 is the latest expression of it. A beautifully sculpted interpretation of some of the most advanced automotive thinking on the road today. And plenty of it. In terms of power. Accommodations. Trunk space. Subtlety and refinement. As well as fuel efficiency. And now, it's poised and ready to awaken the feeling within you as only a Mazda can. The feeling calls you, and the car awaits. Test-drive MAZDA 6 at your Mazda Dealer today. Zoom-Zoom.

Product Changes and Options Availability: Following publication of this brochure, certain changes in standard equipment, options, prices and the like, or product delays, may have occurred which would not be included in these pages. Your Mazda Dealer is your best source for up-to-date information. Mazda reserves the right to change product specifications at any time without incurring obligations. Options shown or described in this brochure are available at extra cost and may be offered only in combination with other options or subject to additional ordering requirements or limitations.

Peace of mind also comes standard.

Every new 2011 MAZDA 6 is protected by:

- A 3-year/36,000-mile* "bumper-to-bumper" limited warranty
- A 3-year/36,000-mile* 24/7 Emergency Roadside Assistance program
- A 5-year/60,000-mile* limited powertrain warranty
- A 5-year/unlimited-mileage warranty against body rust-through

* Whichever comes first.

For details, please see your Mazda Dealer, visit MazdaUSA.com, or call toll-free 800-639-1000.

Once you have it, outfit it accordingly.

One of the most enjoyable aspects of buying a new MAZDA 6 is being able to enhance its appearance and performance with Genuine Mazda Accessories. What's more, all Genuine Mazda Accessories installed by your Mazda Dealer, prior to or at initial vehicle retail delivery, carry the same new-vehicle limited warranty as your new Mazda. Ask your dealer for details.

Financing your new Mazda is easy.

Whether buying or leasing a new Mazda, Certified Pre-Owned Mazda or a used vehicle, Mazda Capital Services can help

make the financing process more convenient and satisfying. One of the largest auto lenders in America, Mazda Capital Services is known for first-class customer service, a wide range of financing options and highly competitive rates. To find out which purchase or lease plan is right for you, talk with your Mazda Dealer, or visit www.MazdaUSA.com.

A Mazda's iPod® Integration system makes it a lot easier to take your Apple® iPod along for the ride. In fact, it allows you to play your iPod through your Mazda's audio system with crystal-clear sound while also providing a built-in battery charger. Works with most 30-pin, dock-connector-equipped iPods. iPod not included. iPod touch® shown. Additional components may be required for installation; contact your Mazda Dealer for details. **B Auto-Dimming Rearview Mirror With Compass And HomeLink®.** Automatically dims to reduce glare from headlights of cars behind you. Bright LED compass readout and the added security, efficiency and convenience of HomeLink. HomeLink is the original control system that allows you to communicate wirelessly from your vehicle to open garage doors, turn on lights, open gates and more. It's all about making your life more convenient and safe. **C Cargo Net.** Keep smaller items from bouncing around in your MAZDA 6's cargo area. Custom-designed, easily installed and removed. **D All-Weather Floor Mats.** Not just for bad weather anymore, these "Whatever" floor mats are the perfect accessory to protect your MAZDA 6's interior from not only water, sand, mud and snow but crumbs, spills, grass and anything else that your Zoom-Zoom lifestyle may bring. **E Bumper Guard.** Protect your paint finish while loading and unloading the cargo area. **F Rear Wing Spoiler.** Accent your sporty attitude with this rear wing spoiler. Color-matched to your MAZDA 6. **G Illuminated Doorsill Trim Plates.** Protect your doorsills while adding style and additional visibility. Aluminum with the MAZDA 6 logo. **H Splash Guards.** Protect your paint finish from rocks and other road debris.
