2013 ENCLAVE  
IS NOW  
ARRIVING.

# YOU'LL FIND IT QUITE REFRESHING.

Of course, we couldn't leave well enough alone. So we took everything that makes Enclave the finest luxury crossover ever—and kept going. Taking design, comfort, technology and safety to a whole new place. So now, you can do the same. We call it the 2013 Buick Enclave.

2013 Enclave available late 2012. Shown in Cyber Gray.

## AH, THE WIDE-OPEN SPACE.

Slide in and discover you've been bumped up to a new class of travel. A "low and away" instrument panel gives you plenty of openness. With a soft-to-the-touch feel that, well, makes you want to keep touching it. Your eyes are treated to distinctive wood tones, chrome accents and ice-blue ambient lighting. While your ears enjoy the sounds of silence thanks to our exclusive QuietTuning process.

## SOCIAL MEDIA ISN'T THE ONLY WAY TO CONNECT WITH FRIENDS.

Seven of your closest friends and family — and of course, all of their stuff — get to share this space. Three rows of first-class seating feature Smart Slide, so getting to the third row is easy thanks to second-row seats that slide forward with only one hand. Enclave is quite flexible. Flip down the second- and third-row seats and you've got a level load floor for up to 115 cubic feet of storage.<sup>1</sup> To get to all of this space, a power liftgate does the heavy lifting for you.

<sup>1</sup>Cargo and load capacity limited by weight and distribution.

BOTH SIDES ARE ITS GOOD SIDE.

A few, oh-so-artfully sculpted lines flow seamlessly  
from front to rear and back again.

Shown in Champagne Silver.

A silver Buick Enclave SUV is shown driving on a paved road that curves along a coastline. The road is bordered by a stone wall on the left and a low stone wall on the right, with the ocean visible in the distance. The scene is set during sunset, with a warm, golden light illuminating the sky and the car. The car is positioned in the middle ground, moving towards the viewer.

DON'T JUST  
HIT THE ROAD.  
OUTSMART IT.

When conditions (weather or otherwise) demand more traction, Enclave's available intelligent All-Wheel Drive System doesn't ask you to push buttons. It's automatically activated when you need it most. By constantly monitoring traction at all four wheels, whenever it detects slip, power is delivered to the wheels with the best grip. Combine this with StabiliTrak and traction control for stability even in bad conditions, and you're going places.

## TO HEAR YOUR FAVORITES, JUST SAY THE WORD.

With IntelliLink<sup>1</sup> voice activation, Enclave plays your favorite music, initiates hands-free calls and lets you choose your favorite Internet radio stations just by asking. Using Bluetooth,<sup>2</sup> it connects your smartphone, allowing you to take your personalized entertainment like Pandora<sup>®</sup> internet radio and Stitcher<sup>™</sup> SmartRadio everywhere you travel.

<sup>1</sup>Full functionality requires compatible Bluetooth and smartphone. Some devices require USB connectivity. Data plan rates apply.

<sup>2</sup>Go to [gm.com/bluetooth](http://gm.com/bluetooth) to find out which Bluetooth phones are compatible with the vehicle.

## SECURITY DETAIL.

For your protection, available Side Blind Zone Alert<sup>1</sup> uses radar to warn you when a vehicle is in your blind spot. The rearview camera gives you a heads up of what's behind you, and the new available Rear Cross Traffic Alert makes you aware of oncoming traffic when backing out of a parking spot. And in an industry first, the centrally mounted front air bag<sup>2</sup> adds another layer of protection by providing cushioning between you and your front passenger to help reduce injuries in side impacts.

<sup>1</sup>Before making a lane change, always check the Side Blind Zone Alert display, check side and inside rearview mirrors, look over your shoulder for vehicles/hazards and start the turn signal.

<sup>2</sup>Air bag inflation can cause severe injury or death to anyone too close to the bag when it deploys. Be sure every occupant is properly restrained.

## ARE THEY LIGHTS OR ART OBJECTS? YES.

How you see the world and the world sees you has evolved thanks to signature LED front headlamps and rear taillamps. Their contemporary styling helps them illuminate Enclave's design as much as the road.

MAKES ANY  
CURB MORE  
APPEALING.
