

2017 HYUNDAI

AZERA

2017 HYUNDAI AZERA

WHAT DOES DRIVING AN AZERA SAY ABOUT YOU?

It says a whole lot, and it's all good. It says you like to spend your time in a roomy, comfortable and stylish sedan. The 2017 Hyundai Azera's shape flows elegantly from its integrated LED fog lights in front to its hexagonal dual exhaust tips in back – a design language we call Fluidic Sculpture.

It says you like luxury: In the cutting-edge design of the Azera interior, you're treated to rich leather. And standard features like a 12-way power driver seat with adjustable lumbar and an 8" touchscreen display with advanced navigation. It also says you like the security of sophisticated safety technologies like Blind Spot Detection and available Forward Collision Warning and Lane Departure Warning systems.¹

And it says you like your driving dynamics to feel refined. Azera's smooth, quiet V6 engine is as powerful as it is efficient with an estimated EPA highway fuel economy rating of 28 MPG.² A 6-speed automatic transmission with SHIFTRONIC[®] manual shift mode makes the most of the V6's robust 293 horsepower. Azera's ride is silky-smooth, too, thanks to a multi-link rear suspension and SACHS[®] Amplitude Selective Damping.

Apple CarPlay[™] support lets you bring your digital life along for the ride.³ Make calls, listen to Apple Music, send messages and get directions using Siri voice commands or your 8" touchscreen. Azera also supports Android Auto,[™] which syncs with your compatible Android phone and features Google's best-in-class speech technology for accessing Google Maps,[™] Google Play[™] Music and more.⁴ Popular music apps like Pandora,[®] Spotify[®] and iHeartRadio are supported for both platforms.

Having said all that, there's only one thing left to say: Enjoy driving your new Azera.

¹ Do not rely completely on Blind Spot Detection (BSD) and be sure to use proper lane changing procedures. BSD may not detect every object or vehicle and will not prevent accidents. The Forward Collision Warning System is intended to be a supplement to safe driving practices. The system is not designed to detect certain stationary objects such as trees or poles, and may not detect all vehicles under certain conditions. The system does not provide a braking function. The driver is responsible for being attentive and maintaining control of the vehicle, and should not wait for the system's alerts before braking as there may not be sufficient time to brake safely. Lane Departure Warning operates above approximately 44 mph and only when the lane markings are clearly visible on the road. It will not prevent loss of control. Refer to your Owner's Manual for more information. ² EPA estimates for comparison only. Mileage may vary. Your actual mileage will vary with options, driving conditions, driving habits and the vehicle's condition. ³ Apple CarPlay works with iPhone 5 and later models running the latest version of iOS 7.1 and above. Apple is a registered trademark of Apple Inc. ⁴ Android Auto works with smartphones running Android[™] 5.0 or higher. Android, Android Auto, Google Play and other marks are trademarks of Google Inc.

AZERA LIMITED in Moroccan Pearl

¹ Edmunds.com, "Full Expert Review: 2016 Hyundai Azera". ² Smart Cruise Control (SCC) is not a collision avoidance or warning device. SCC is for highway use only and should not be used in poor weather, heavy or varying traffic, or on winding or slippery roads. The driver remains responsible to slow or stop the vehicle to avoid a collision.

AZERA LIMITED in Diamond White Pearl

PRECISION ENGINEERING

STATE-OF-THE-ART V6 POWER. AND OTHER ENGINEERING MARVELS.

With all the amazing new capabilities being added to cars these days, it's easy to forget what sets one apart from another: The core engineering of its engine, transmission, suspension and steering. Drive an Azera, and the confidence you'll feel can best be summed up by an expert review on Edmunds.com: "Remember when buying a full-size sedan made you feel like you had just purchased a rental car? Those boring days of yore are gone, thanks to cars like the 2016 Hyundai Azera."¹

Press the accelerator, and feel how Azera's 3.3L V6 engine creates effortless power – the kind that makes quick work of merging onto expressways or pulling out to pass on a two-lane highway. What's surprising is how Azera manages to be fuel efficient, too – the result of state-of-the-art technologies like Gasoline Direct Injection and Dual Continuously Variable Valve Timing.

Our engineers test their innovations at Hyundai's California Proving Grounds, one of the most advanced automotive R&D centers in the world. It's where Azera's steering feel is tuned to excel on America's most demanding roads. And satisfy drivers like you who demand quality in the automobiles they purchase.

CRUISE CONTROL WITH STOP/START

For those longer drives on the highway, Azera's Smart Cruise Control adjusts to the flow of traffic. It uses radar to judge the distance and speed of vehicles in front of you and automatically accelerates or decelerates to help maintain the distance selected by the driver. When the vehicle ahead of you comes to a complete stop, your Azera automatically stops, too. If the vehicle ahead starts moving forward within three seconds, then your Azera automatically starts moving again.² Smart, don't you think?

SACHS® SUSPENSION

The roads you travel each day don't seem to be getting any smoother, do they? That's no problem for Azera. It uses a sophisticated SACHS Amplitude Selective Damping suspension at all four wheels to soak up wrinkles in the road on a bump-by-bump basis. The result of this precise response is the kind of continuously optimized balance between ride comfort and handling control that's normally found only on higher-priced luxury performance sedans.

ACTIVE ECO SYSTEM

The 2017 Hyundai Azera comes standard with Active ECO System, an innovation that adapts engine response for more economical fuel consumption. As the Azera driver, you select when you want to activate this feature. At the press of a button, engine and transmission controls are modified for improvement in real-world fuel economy.

MOTOR-DRIVEN POWER STEERING

Notice the refined steering feel of Azera? That's Hyundai's advanced Motor Driven Power Steering, a system that offers progressive feel in sync with the engine's RPM. At lower speeds, the feel is lighter for easy maneuverability. As RPMs increase, the steering feel is progressively more firm.

ADVANCED SAFETY

BECAUSE YOU CAN NEVER HAVE TOO MANY FRIENDS.

Safety features are like friends – you can never have too many. And if you've compared Azera to its primary competitors, you already know this: Azera has more standard passive and active advanced safety features than they do.¹

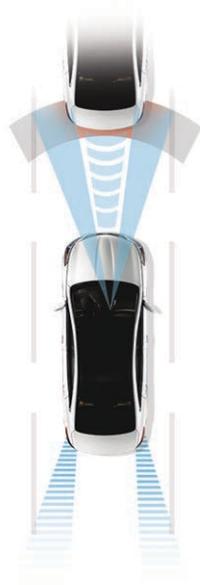

Azera is the only car in its class to offer Blind Spot Detection with Lane Change Assist and Rear Cross-traffic Alert as standard.² This radar-based system helps detect the presence of vehicles in your rear blind spots while driving, and warns of cars approaching from the side when backing out of parking spaces. Completing the full circle of technology, Azera Limited's available Forward Collision Warning uses a forward-sensing camera to monitor for potential collisions and alerts the driver.

At the core of the 2017 Azera's active safety strategy is an advanced Vehicle Stability Management system. It automatically manages several important safety features including Electronic Stability Control with a Traction Control System and an Anti-lock Braking System with Electronic Brake-force Distribution and Brake Assist.³ All standard.

Hyundai's award-winning Blue Link® Connected Care system is also standard for the first year of ownership.⁴ It includes Enhanced Roadside Assistance, SOS Emergency Assistance, Monthly Vehicle Health Reports and more – a few very good friends to have onboard when you need them.

¹ Claim based on comparison of specifications on manufacturer websites. ² Lane Change Assist provides an audible and visual alert if the turn signal is activated and another vehicle in the blind spot is sensed. There are limitations to the function, range, detection and clarity of the system. Rear Cross-traffic Alert is active when the vehicle is in reverse gear and backing at a speed less than 6 mph. It may not detect all vehicles, depending on the size, angle, distance and speed of the other vehicle, and does not detect stationary objects or slow moving objects near the car, including pedestrians. See Owner's Manual for further product details and limitations. ³ Electronic Stability Control (ESC) cannot control your vehicle's stability under all driving situations. ESC is not a substitute for safe driving practices. No system, no matter how advanced, can overcome physics or correct poor driving. The driver is always responsible for controlling the vehicle and must use caution to avoid loss of control in all driving conditions. Speed, road conditions and driver steering input will affect whether ESC can help prevent loss of control. See Owner's Manual for details. The Traction Control System is meant to enhance conscientious driving habits and is not a substitute for safe driving practices. ⁴ Blue Link Connected Care includes one year of the Blue Link Connected Care Package and requires an active Blue Link subscription. One-year term starts from the new vehicle date of first use and is available for new vehicle purchases and leases based upon terms and conditions on the Blue Link subscription enrollment pages. Cellular and GPS coverage is required.

FORWARD COLLISION WARNING

LANE DEPARTURE WARNING

LANE CHANGE ASSIST

REAR PARKING ASSISTANCE WITH REAR CROSS-TRAFFIC ALERT

Backing into parking spaces or backing out of driveways is nobody's idea of a good time. To make it easier, Azera Limited comes standard with rear parking sensors that give an audible indication when you're nearing an object. Another standard technology, Rear Cross-traffic Alert, helps warn the Azera driver of vehicles approaching from the side when reverse gear is selected.

AUTOMATIC HIGH BEAM ASSIST

Driving at night poses special challenges. Which is why Azera Limited comes standard with automatic High Beam Assist. When an oncoming vehicle is detected by the front camera, it automatically switches Azera's headlights from high to low beams.

BLIND SPOT DETECTION AND LANE CHANGE ASSIST

To warn the Azera driver of a vehicle approaching from the side, Blind Spot Detection uses blinking indicators on the side mirrors and an audible warning to help keep you aware as you navigate through traffic. Azera's class-exclusive Lane Change Assist technology factors the closing speed of adjacent vehicles into the warning calculus to help determine if switching lanes is safe.

FORWARD COLLISION WARNING

An extra set of eyes is always welcome when navigating through the chaos of heavy traffic. Which is why Azera Limited comes standard with a Forward Collision Warning system that senses the potential for a collision with a vehicle in front of you and sounds an alarm. The warning signals the driver to apply brakes to help prevent a collision or mitigate its impact.

ERGONOMIC INNOVATION

BUILT WITH THE BELIEF EVERYONE DESERVES VIP TREATMENT.

You know how special you are. Isn't it time your car made you feel important, too? With the 2017 Azera, it begins by recognizing you. Walk up to your car with its Proximity Key in your pocket or purse, and its hands-free smart trunk opens automatically for easy access. Come to your door, pull the handle, and it unlocks automatically, too.

Now cross Azera Limited's illuminated door sill and take your seat inside a cutting-edge interior designed with more front head room, legroom and shoulder room than its top competitors.¹ Front or rear, you're relaxing in a heated leather seat. Chose a front seat, and it's not only heated, but also ventilated for cooling comfort. If you've parked yourself in the driver's seat, then you've chosen very wisely: There's 12-way adjustment of the seat including adjustable lumbar and a seat cushion extension for added thigh support.

At the push of a button, an Integrated Memory System remembers your select positions for the seat, side mirrors and steering column. Prefer to be a rear-seat passenger? Rear seat vents for Azera's dual fully automatic temperature control system ensure you stay comfortable. And the power rear window sunshade and panoramic sunroof give you whatever level of privacy or openness you desire.

HANDS-FREE SMART TRUNK

Hands full? Azera has an answer for that. It comes standard with a trunk that automatically opens its lid when it senses you (and your Proximity Key) nearby. Just stand within three feet of the rear for more than three seconds, and it gently pops open.

8" SPLIT SCREEN

The command center for many of Azera's advanced features, this enhanced hi-resolution color touchscreen display is 33% brighter than the previous generation for improved daytime visibility. Easy to use, the screen splits to display both turn-by-turn navigation and audio functions at the same time. To aid in finding your way, there's junction view lane guidance. Need something? Just ask, and the system responds to your voice commands.

INFINITY PREMIUM AUDIO

Azera's standard 550-Watt Infinity Logic 7® Premium Audio System uses 14 speakers to transform the interior into a concert venue. Enjoy listening to SiriusXM® Satellite Radio's upgraded offerings² and HD Radio™ with multicasting. In addition to making hands-free calls, Azera's Bluetooth® system also lets you stream playlists from your smartphone through the car's audio system.

HYUNDAI BLUE LINK

Among the many features of our Blue Link Connected Car System is an available Remote Package that adds convenient remote access and vehicle safeguards.³ The Blue Link mobile app lets you lock, unlock and start your Azera remotely using your smartphone. Teenager borrowing the car? Geo-Fence, Speed and Curfew Alert features let you rest easy. In the available Guidance Package, Blue Link's Destination Search Powered by Google™ feature lets you use voice commands to find destinations and download points of interest or addresses directly to your navigation system. KEY STANDARD FEATURES

- 293-hp, 3.3L Gasoline Direct Injection V6 engine with Dual Continuously Variable Valve Timing
- 6-speed automatic transmission with SHIFTRONIC® manual shift mode
- SACHS® Amplitude Selective Damping shock absorbers
- 18" alloy wheels
- Daytime Running Lights with front foglights
- Heated power-folding side mirrors with LED turn-signal indicators
- Bodyside chrome moldings
- Bodycolor door handles with chrome inserts
- Automatic headlight control with delay-off feature
- Hands-free smart trunk with auto open
- Proximity Key entry with push button start
- 8" touchscreen navigation system with rearview camera
- AM/FM/SiriusXM/CD/MP3 550-Watt Infinity® Logic 7® Surround Sound Audio System with 14 speakers
- HD Radio™ technology
- SiriusXM Travel Link® (complimentary trial period)
- Blue Link® Connected Car System
- Smartphone/USB auxiliary input jacks
- Bluetooth® hands-free phone system with phonebook transfer
- Premium leather seating surfaces
- Power driver and front passenger seats
- Driver seat cushion extension
- Ventilated and heated front seats
- Heated rear seats
- Leather-wrapped steering wheel and shift knob
- Power tilt-and-telescopic steering wheel
- Integrated Memory System for power driver seat, side mirrors and steering column
- Dual automatic temperature control with cabin air filter
- Floor console-mounted rear vents
- Auto-dimming rearview mirror with compass and HomeLink®
- Electroluminescent Gauge Cluster with color LCD multi-info display
- 9-airbag safety system with advanced dual front airbags and Occupant Classification System
- Vehicle Stability Management
- Electronic Stability Control with Traction Control System
- 4-wheel disc ABS with Brake Assist and Electronic Brake-force Distribution
- Blind Spot Detection with Lane Change Assist and Rear Cross-traffic Alert

AZERA LIMITED

Azera Standard Features plus:

- + Lane Departure Warning
- + Forward Collision Warning
- + Automatic High Beam Assist
- + Rear parking sensors
- + Panoramic tilt-and-slide sunroof
- + 19" alloy wheels
- + High Intensity Discharge Xenon headlights

- + LED foglights
- + Smart Cruise Control with stop/start
- + Electronic Parking Brake with Automatic Vehicle Hold
- + Ambient interior lighting
- + Illuminated door sill plates
- + Power rear sunshade
- + Manual rear side-window sunshades
