

2010 GMC ACADIA

ACADIA

YOU INSIST ON GREAT CAPABILITY COUPLED WITH EXCEPTIONAL SAFETY. YOU REQUIRE SEATING FOR UP TO EIGHT IN A VEHICLE THAT CAN TRAVEL OVER 500 HIGHWAY MILES¹ ON A TANK OF GAS—AND BETTER HIGHWAY FUEL ECONOMY THAN ANY OTHER 8-PASSENGER SUV.² YOU VALUE ADVANCED TECHNOLOGY AND THOUGHTFUL ERGONOMICS. IN OTHER WORDS, YOU WANT A PREMIUM UTILITY THAT REJECTS COMPROMISE. YOU WANT THE GMC ACADIA: THE REALIZATION OF WHAT HAPPENS WHEN YOU ENGINEER TO EXCEED EXPECTATIONS.

¹AWD models 16 city/23 hwy. EPA-estimated mpg. ²Excludes other GM vehicles.

The first thing you'll notice about Acadia is how its low stance creates an easy step up for effortless entry. A low liftover height means easy loading and unloading of cargo. Choose the optional power liftgate with remote operation for convenient hands-free access to the rear cargo area. Moving inside, Acadia's SmartSlide technology

means one hand is all it takes to slide second-row seats forward for easy access to the third row. With its impressive shoulder and leg room—plus a host of premium amenities—Acadia truly responds to the way you live your life, satisfying your desire for both comfort and personal space.

POWER LIFTGATE

Remote operations make loading and unloading even easier with the power liftgate (standard on SLE and SLT models). It can be operated remotely with the key fob, or with a button just inside the liftgate—or, if you're in a front seat, with a switch in the center console. A built-in sensor stops the liftgate from opening or closing if it encounters resistance.

30.75" LOW LIFTOVER HEIGHT FOR EASY LOADING

04 _ COMFORT ZONE

ACADIA SLT-2 IN LIGHT TITANIUM SHOWN WITH AVAILABLE TOUCH-SCREEN NAVIGATION¹ AND OTHER AVAILABLE EQUIPMENT

Acadia's interior is comfortable and quiet. Thanks to the strategic application of acoustic foam, refined engine dynamics—and even wiper blades designed for quiet operation—noise is kept to a minimum. Driver and front passenger benefit from available heated and cooled perforated leather-appointed seating

surfaces, while tri-zone climate control (standard on SLT, available on SLE models) allows for passenger comfort in all three rows. Steering-wheel-mounted controls mean one-touch operation of the audio system and activation of hands-free calling, putting driving enhancements right at your fingertips.

INTERIOR SOLITUDE

TOUCH-SCREEN NAVIGATION

All Acadia sound systems include AM, FM and standard XM Radio² with 3 trial months of service. Other choices include available Touch-Screen Navigation¹ featuring a rearview camera display on the navigation screen. The system

provides superb mapping capabilities with routes in 2-D or 3-D views on a 6.5-inch diagonal display with touch-screen control. It also features 3 trial months of XM NavTraffic service.³

AVAILABLE 10-SPEAKER BOSE® SOUND SYSTEM WITH 5.1 SURROUND SOUND AUDIO

AVAILABLE HEATED AND COOLED SEATS

AVAILABLE REAL-TIME NAVTRAFFIC³

AVAILABLE REAR-SEAT ENTERTAINMENT SYSTEM

¹Map coverage for Puerto Rico and the Virgin Islands available on separate disc. Coverage not available for portions of Canada. ²XM Radio requires a subscription, sold separately by XM after the first 90 days. XM Radio U.S. service only available in the 48 contiguous United States and the District of Columbia. For more information, visit gm.xmradio.com. ³Required XM Radio and XM NavTraffic monthly subscriptions sold separately by XM after trial period. XM NavTraffic only available in select markets.

BLUETOOTH^{®1} AND USB CONNECTIVITY

 Acadia's technology allows you to integrate your own Bluetooth phone for in-vehicle hands-free operation. Standard on SLE and SLT models, steering-wheel-mounted controls let you start a call and control volume, then dial by voice and listen to your call through Acadia's audio system. After a quick setup, connection and disconnection occur automatically each time you enter or exit the vehicle.

Available on SLE and standard on SLT models are sound systems featuring an integrated USB port. The port recharges your iPod[®]/MP3 player while it plays audio from the device through the sound system. Your play lists and folders show up on the sound system display, and you can operate the device with the sound system controls, including those on the steering wheel. Speaking of connectivity, a one-year OnStar Directions & Connections² plan is standard on Acadia as well (see page 24).

REMOTE START

Remote start (standard on SLE and SLT models) lets you start both the engine and climate control system from outside Acadia so it's ready to go when you are—helping you stay cool as the mercury climbs and warm as it drops. Activation is by the key fob that also controls the remote keyless entry function and available power liftgate.

XM RADIO

XM Radio³ is standard with 3 trial months of service. XM turns your drive on with commercial-free music channels from virtually every genre, artist-dedicated channels, live performances and more. Tune in to live play-by-play from the biggest sports, exclusive entertainment from top personalities, compelling talk, hilarious comedy, world-class news, local traffic and weather and family-friendly programming. Everything worth listening to is now on XM.

REAR-SEAT ENTERTAINMENT SYSTEM

The available Rear-Seat Entertainment System (shown on page 21) includes a rear-seat DVD player with remote control, overhead display, two sets of two-channel wireless infrared headphones (batteries included) and auxiliary audio/video input jacks, plus the 10-speaker Bose sound system with 5.1 Surround Sound audio.

REARVIEW CAMERA SYSTEM

Acadia's available rearview camera is designed to help you navigate a driveway or a parking space more effectively. Shift into reverse, and a view of what's behind the vehicle is displayed in a portion of the rearview mirror. On SLT models, when Touch-Screen Navigation⁴ is ordered, the camera display is integrated into the NAV screen.

□ □ □ □ □

¹Go to gm.com/bluetooth to find out which Bluetooth phones are compatible with the vehicle. ²Call 1-888-4ONSTAR (466-7827) or visit onstar.com for details and system limitations. ³XM Radio requires a subscription, sold separately by XM after the first 90 days. XM Radio U.S. service only available in the 48 contiguous United States and the District of Columbia. For more information, visit gm.xmradio.com. ⁴Map coverage for Puerto Rico and the Virgin Islands available on separate disc. Coverage not available for portions of Canada.

CU. FT. OF CARGO SPACE¹
BEHIND FRONT ROW

AVAILABLE SECOND-ROW
CONSOLE WITH DUAL
CUPHOLDERS AND TWO
STORAGE AREAS

ACADIA SLT-2 IN LIGHT TITANIUM SHOWN WITH AVAILABLE EQUIPMENT

OPEN FLOOR PLAN

Acadia's open floor plan reflects the very notion of what personal space should be—comfortable and inviting. Stadium seating, plus perceivable shoulder and leg room in the second and third rows give passengers a sense of autonomy usually reserved for the front seat. The seats are sculpted, contoured and fore-aft adjustable for greater comfort. Acadia also features

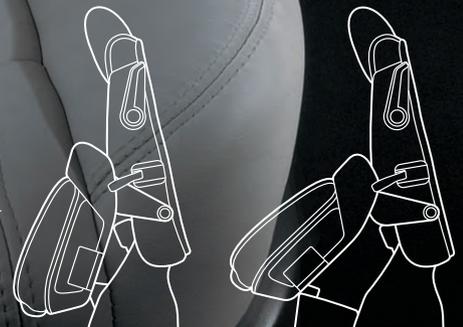

class-leading interior space,¹ space you'll notice when you're ready to load passengers or cargo. And to keep things organized, Acadia has multiple storage spaces, including a large glove box, a bin above the instrument panel, numerous cupholders and spaces below the rear cargo floor and in the available second-row center console.

¹Cargo and load capacity limited by weight and distribution.

CLEVER SEATING ARRANGEMENTS

With either of Acadia's seating configurations, the SmartSlide system lets you slide the second-row seats forward with one hand (right) for easy access to the third-row seat. A second-row bench seat, standard on SL and available on other models, gives Acadia room for eight. For seven-passenger seating, choose available second-row captain's chairs (shown) and you get a generous aisleway with even easier access to the third row. The contoured third-row seat has room for three adults, with 57 inches of shoulder room for unexpected comfort and room to move. Both second- and third-row seatbacks fold forward and lie flush, effectively creating a flat cargo area surface and 116.9 cubic feet¹ of cargo-carrying potential.

10 _ SMART SEATS

¹Cargo and load capacity limited by weight and distribution.

ACADIA SLT-2 IN RED JEWEL TINTCOAT SHOWN WITH AVAILABLE EQUIPMENT

3.6L VVT DI

IMPRESSIVE ENGINE TECHNOLOGY

With Acadia's Direct Injection (DI) technology, a precisely metered jet of fuel—adjusted to match engine temperature and throttle demand—is injected and atomized directly into the combustion chamber. There it mixes with incoming air

from the intake manifold. Precise control of the fuel injection event improves combustion efficiency and reduces emissions, resulting in improved fuel economy¹ and enhanced performance.

POWER WHEN YOU NEED IT

Direct-injection technology gives Acadia unsurpassed standard torque and more standard V-6 horsepower than any competitor in its class.² When you need to accelerate—merging onto a busy highway, for instance—Acadia responds both immediately and

smoothly. Along with the power to give you confidence in nearly any driving situation, Acadia also offers better highway fuel economy than any other eight-passenger SUV.³ Who says performance and fuel economy are mutually exclusive?

THE ROAD WILL NEVER FEEL THE SAME

The body-frame integral construction that makes getting in and out of Acadia easy also sets the stage for impressive road manners. It forms a rigid foundation that contributes to a smooth ride and permits traction-enhancing front-wheel drive. Acadia's linked H-arm rear suspension system is state of the art, featuring twin tube shock absorbers, coil springs and forged-steel toe, camber

and pendulum links. It mounts on an isolated cross-member subframe, which helps reduce cabin noise. The lower H-arms and knuckles are made from aluminum, reducing unsprung weight. Cross-axis ball joints enhance handling in evasive maneuvers. Together StabiliTrak, traction control, hydraulic rack-and-pinion steering and advanced suspension all help Acadia offer uncanny agility.

40.4" TURN RADIUS/118.9" WHEELBASE

STABILITY CONTROL/TRACTION CONTROL STANDARD

Helping to keep you firmly in control, the StabiliTrak stability control system is standard. It's an engineering advance designed to improve safety, stability and control on most road surfaces. Sensors read the position of your steering wheel, vehicle speed, brake pressure, lateral acceleration and turning rate, and feed the data to an onboard computer.

If your Acadia is not responding adequately to your steering input, the computer adjusts the engine speed and the brake pressure to any individual wheel to help you keep on track. With sensors that are programmed to proactively predict and help counteract vehicle tip-up on a flat road surface, StabiliTrak can even help to mitigate the chance of a rollover.

ALL-WHEEL DRIVE

An available electronically controlled on-demand AWD system helps Acadia offer outstanding ride and handling. It constantly monitors and adjusts torque quickly and seamlessly between front and rear wheels as necessary. In addition, it offers outstanding fuel efficiency.¹

PROFESSIONAL-GRADE ENGINEERING DEDICATED TO YOUR SAFETY AND SECURITY

Acadia surrounds you with safety, before, during and, thanks to OnStar, even after a collision. It's engineering that has earned the 2010 Acadia a five-star crash safety rating.¹ It has a low center of gravity and a long and wide footprint for a secure stance. ABS, StabiliTrak and traction control are standard, and all-wheel drive

is available. Should a crash occur, integral body-frame construction works to route and absorb impact. The 360° impact and rollover sensors strategically trigger the appropriate air bags.³ In rear impacts, retractor-mounted pretensioners help secure the driver and front passengers.

HIGH-STRENGTH STEEL CONSTRUCTION

Integral body-frame construction makes extensive use of high-strength steel on primary load paths. It also uses dual-phase steel three times stronger than carbon steel in key areas, taking advantage of this material's ability to absorb the energy of crash forces.

SIX AIR BAGS³ AND PASSENGER SENSING SYSTEM

Acadia comes with six air bags,³ two front dual-stage air bags and two side-impact air bags for the driver and front-seat passenger, and head curtain side air bags with rollover protection that function like a protective curtain, unfolding from the roof rail on each side. Activated by side-impact and rollover sensors, each

curtain includes air bag sections for outboard front, second-row and third-row passengers. The front passenger air bag features a Passenger Sensing System. It uses a sensor within the front passenger seat to detect the weight of the occupant. Under a certain weight, the system automatically turns off the air bag.

ONSTAR² AUTOMATIC CRASH RESPONSE

In a crash, built-in sensors around your vehicle can automatically send an alert to OnStar.² An OnStar Advisor is immediately connected to your vehicle to see if you need help. Even if you're unable to respond, the Advisor will use advanced GPS technology to pinpoint your exact location to direct emergency help—even in areas of limited

cellular reception. The Advisor can also relay critical crash information to emergency responders, such as severity and type of crash, so responders are better equipped to treat you at the scene. With Automatic Crash Response, you can get the help you need even if you can't ask for it. See page 24 or visit onstar.com for details.

¹Five-star rating is for the driver and front passenger seating positions in the frontal crash test and for the front and rear seating positions in the side-impact crash test. Side-impact crash test rating is for a model tested with standard head curtain Side-impact Air Bags (SABs). Government star ratings are part of the National Highway Traffic Safety Administration's (NHTSA's) New Car Assessment Program (www.safercar.gov). ²Call 1-888-4ONSTAR (466-7827) or visit onstar.com for details and system limitations. OnStar acts as a link to existing emergency service providers. ³Air bag inflation can cause severe injury or death to anyone too close to the air bag when it deploys. Always use safety belts and the correct restraint for your child's age and size. Even in vehicles equipped with the Passenger Sensing System, children are safer when properly secured in a rear seat in the appropriate infant, child or booster seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with a passenger air bag. See the Owner's Manual and child safety seat instructions for more safety information.

SECOND-ROW BENCH SEAT

The 60/40 split flat-folding bench seat with SmartSlide gives Acadia eight-passenger seating (2-3-3).

GMC
ACCESSORIES

design
by
U

GET PERSONAL.

Make Acadia your very own with available accessories created specifically to match its distinctive style, as well as yours. All of these items have been tested to meet GMC's original equipment standards for performance and appearance. Their cost can be applied to your purchase, installed by your GMC dealer and covered under GM's New-Vehicle Limited Warranty!¹ Just ask your dealer.

1 HEAD RESTRAINT DVD²
Entertain your rear-seat passengers. Separate players are available for the driver-side and passenger-side head restraints.

2 ROOF RACK CARGO BOX
This hard-shell roof rack cargo box gives your Acadia even more cargo-carrying capability. It mounts easily into the T-slots of the roof-mounted luggage cross rails, which are available separately and can accommodate loads up to 250 lbs.³

3 SUNROOF WEATHER DEFLECTOR
Deflects minor road debris. Custom molded to flow with the contours of the sunroof opening. Available in Smoke.

4 CARGO SECURITY SHADE
This Ebony fabric shade keeps the cargo area of your Acadia under wraps. Attaches easily and folds or rolls for convenient storage.

5 TWO-WAY ADVANCED REMOTE START SYSTEM KEY FOB² (ARSS)
Offers greater operating range than factory system. Display on fob shows current vehicle status (locked or unlocked, remote-start engaged, fuel level or tire pressure, among other features). Can also control a second ARSS-equipped vehicle.

6 PREMIUM ALL-WEATHER FLOOR MATS
Designed to handle the elements, these precision-designed mats precisely fit the floor of your Acadia. Front mats feature an embossed GMC logo. Available in Ebony.

7 PORTABLE DVD
The portable DVD player plugs into the docking station, is easily removable and includes two wireless headphones and remote control. Batteries included.

8 CONVENIENCE NET
This elegant black net attaches easily to the sides of Acadia's cargo area to keep items neat and handy while in transit.

CARGO CONVENIENCE PACKAGE² INCLUDES CARGO SECURITY SHADE AND CONVENIENCE NET.

HIT THE ROAD PACKAGE² INCLUDES CHROME ASSIST STEPS, ROOF RACK CROSS RAIL PACKAGE AND CUSTOM-MOLDED SPLASH GUARDS.

CARGO AREA DIMENSIONS³

SECOND AND THIRD ROW FOLDED 116.9 cu. ft.
 SECOND ROW UP/THIRD ROW FOLDED 68.7 cu. ft.
 BEHIND THIRD ROW 24.1 cu. ft.

to gmaccessorieszone.com or see your dealer for details. ⁵Interim model year availability. ⁶Maximum trailer weight ratings are calculated assuming a base vehicle, except for any options necessary to achieve the rating, plus driver. The weight of optional equipment, passengers, cargo and required trailering equipment will reduce the maximum trailer weight your vehicle can tow. See your dealer for details. ⁷When properly equipped; includes weight of vehicle, passengers, cargo and equipment.

**ONSTAR**

OnStar is a core asset of your Acadia. Benefiting from more than a decade of innovative development, it is both a highly advanced technology—fully integrated within the vehicle—and a warm human service. One year of the OnStar Directions & Connections plan is standard. In addition to the convenience of Hands-Free Calling,¹ it also includes Automatic Crash Response (see page 19), Stolen Vehicle Assistance,² link to Emergency Services, Roadside Assistance, Remote Door Unlock,² OnStar Vehicle Diagnostics, Crisis Assist and Remote Horn and Lights. It also includes Turn-by-Turn Navigation³ (see right). OnStar services require vehicle electrical system (including battery), wireless service and GPS satellite signals to be available and operating for features to function properly. OnStar acts as a link to existing emergency service providers. Subscription Service Agreement required. Call 1-888-4ONSTAR (466-7827) or visit onstar.com for OnStar's Terms and Conditions, Privacy Policy, details and system limitations.

ONSTAR HANDS-FREE CALLING

OnStar Hands-Free Calling¹ capability is built into your Acadia. It's there when your cell phone is unavailable, its battery is low, you can't reach it easily or you left it home or in the office. Your Hands-Free Calling system is the right choice whenever you need an easy way to make and receive calls—at the touch of the phone button on the rearview mirror or the steering-wheel-mounted controls shown on page 6 (not available on SL models). Voice-activated dialing is convenient because you don't have to dial when you are at the wheel. And Hands-Free Calling is reliable because it's specially designed for better reception and fewer dropped calls in areas of limited cellular reception. You are invited to experience the benefits yourself with 30 Hands-Free Calling minutes—on OnStar—during the first two months you drive your Acadia, with no strings attached.

ONSTAR TURN-BY-TURN NAVIGATION

Your OnStar Directions & Connections plan also includes innovative, easy-to-use Turn-by-Turn Navigation³ plus Information and Convenience Services. With Turn-by-Turn Navigation, you simply tell the OnStar Advisor your intended destination,

and directions will automatically be sent to your Acadia. An automated voice then guides you turn-by-turn until you arrive at your destination. Turn-by-Turn Navigation is further enhanced with eNAV,⁴ allowing you to send MapQuest® destinations directly to your vehicle. No need to print out directions; just call them up with simple voice commands.

**XM RADIO**

XM Radio⁵ is standard with 3 trial months of service. XM turns your drive on with commercial-free music channels from virtually every genre, artist-dedicated channels, live performances and more. Tune in to live play-by-play from the biggest sports, exclusive entertainment from top personalities, compelling talk, hilarious comedy, world-class news, local traffic and weather and family-friendly programming. Everything worth listening to is now on XM. Visit gm.xmradio.com for details.

**XM NAVTRAFFIC**

Included with the available Touch-Screen Navigation System, 3 trial months of XM NavTraffic⁶ service enhances Acadia's GPS Navigation System by showing real-time traffic data—while you're driving. Available in over 80 markets, XM NavTraffic displays construction, road closures and accidents so that you can get to your destination faster, plus average traffic speed and estimated drive time in select markets. For more information, visit xmradio.com/navtraffic.

¹OnStar Hands-Free Calling requires a Hands-Free Calling-enabled vehicle, existing OnStar service contract and prepaid minutes. Not available in certain markets. Calls may be made to the U.S. and Canada only.

²Ability to locate stolen vehicles and Remote Door Unlock success vary with conditions. Remote Door Unlock requires power door locks.

³Turn-by-Turn Navigation is not available in certain areas. Visit onstar.com for coverage map.

⁴Requires Directions & Connections plan. Not available in certain areas. Visit onstar.com for coverage map.

⁵XM Radio requires a subscription, sold separately by XM after the first 90 days. XM Radio U.S. service only available in the 48 contiguous United States and the District of Columbia. For more information, visit gm.xmradio.com.

⁶Required XM Radio and XM NavTraffic monthly subscriptions sold separately by XM after trial period. XM NavTraffic only available in select markets. For more information, visit xmradio.com/navtraffic.

COMMITMENT PLUS

From the owner orientation—and full tank of gas—you receive when you take possession of your Acadia to the **24-Hour Roadside Assistance, Courtesy Transportation and Travel Benefits**, Commitment Plus is a portfolio of owner privileges that lasts throughout your warranty. For expert product information, Roadside Assistance or other services, call 1-800-GMC-8782.

TRAVEL BENEFITS AND ROADSIDE ASSISTANCE Available around the clock: trip routing service, a program for reimbursement for trip interruption due to necessary warranty repairs, towing, flat tire change, jump-starts and more for 5 years or 100,000 miles (whichever comes first).

COURTESY TRANSPORTATION Available at participating dealers: shuttle service reimbursement of certain public transportation or fuel expenses for overnight warranty repairs, and courtesy rental for overnight work repairs. See your dealer for details.

GMC OWNER CENTER A complimentary, one-stop resource to enhance your GMC ownership experience. It's easy to sign up. Just go to gm.com/gmownercenter/gmc.

BEST COVERAGE IN AMERICA Acadia offers the best coverage in America. That means you get all the benefits of Commitment Plus, including Roadside Assistance and Courtesy Transportation. In addition, you will get a new level of confidence with GM's 5-Year/100,000-Mile Transferable Powertrain Limited Warranty. Whichever comes first. See dealer for limited warranty details.

GMC | Goodwrench **GOODWRENCH SERVICE** To help your Acadia live up to its performance promise, GMC Goodwrench Service—found exclusively at your GMC dealer—is there. With all the engineering excellence in Acadia, GM-trained Goodwrench technicians have the expertise to care for all of it.

A NOTE ON CHILD SAFETY Always use safety belts and the correct restraint for your child's age and size. Even in vehicles equipped with the Passenger Sensing System, children are safer when properly secured in a rear seat in the appropriate infant, child or booster seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with a passenger air bag. See the Owner's Manual and child safety seat instructions for more safety information.

TRAILERING WITH YOUR ACADIA Please review your Owner's Manual for important safety information about trailering with your vehicle.

IMPORTANT WORDS ABOUT THIS CATALOG We have tried to make this catalog comprehensive and factual. We reserve the right, however, to make changes at any time, without notice, in prices, colors, materials, equipment, specifications, models and availability. Specifications, dimensions, measurements, ratings and other numbers in this catalog and other printed materials provided at the dealership or affixed to vehicles are approximates based upon design and engineering drawings and prototypes and laboratory tests. Your vehicle may differ due to variations in manufacture and equipment. Since some information may have been updated since the time of printing, please check with your GMC dealer for complete details. GMC reserves the right to lengthen or shorten the model year for any product for any reason, or to start and end model years at different times.

GMC.COM See more of Acadia on our Web site: gmc.com/acadia. More photos and information; hot links to related subjects; convenient dealer locator; pricing guide, spec out your own vehicle. Or call 1-800-GMC-8782.

AN IMPORTANT NOTE ABOUT ALTERATIONS AND WARRANTIES Installations or alterations to the original equipment vehicle (or chassis) as distributed by General Motors are not covered by the General Motors New-Vehicle Limited Warranty. The special body company, assembler, equipment installer or upfitter is solely responsible for warranties on the body or equipment and any alterations (or any effect of the alterations) to any of the parts, components, systems or assemblies installed by GM. General Motors is not responsible for the safety or quality of design features, materials or workmanship of any alterations by such suppliers.

NEW-VEHICLE WARRANTY All GMC light-duty vehicles come with a fully transferable, no-deductible 5-year/100,000-mile (whichever comes first) Powertrain Limited Warranty. GM vehicles registered in the U.S.A. are also covered bumper-to-bumper for 3 years or 36,000 miles (whichever comes first). Coverage includes tires and towing to your nearest GMC dealership. Repairs will be made to correct any vehicle defect and most warranty repairs will be made at no charge. In addition, rust-through corrosion will be covered for 6 years or 100,000 miles (whichever comes first). See dealer for details.

ENGINES GMC products are equipped with engines produced by GM Powertrain or other suppliers to GM worldwide. The engines in GMC products may also be used in other GM makes and models.

ASSEMBLY GMC vehicles and their components are assembled or produced by different operating units of General Motors, its subsidiaries or suppliers to GM worldwide. We sometimes find it necessary to produce GMC vehicles with different or differently sourced components than originally scheduled. Since some options may be unavailable when your vehicle is assembled, we suggest that you verify that your vehicle includes the equipment you ordered or, if there are changes, that they are acceptable to you.

GMMOBILITY.COM (1-800-323-9935) GM Mobility offers financial assistance for eligible adaptive equipment to make automotive travel easier for persons with disabilities or special transportation needs. To learn more about special GM Mobility offers, visit gmmobility.com.

GMCARDMEMBERSERVICES.COM Did you know about the family of reward credit cards that can help you get a great deal on a new GM car, light-duty truck, SUV or crossover? With a GM reward card, you accrue earnings on every credit card purchase to use toward the purchase or lease of an eligible new GM vehicle. With three cards to choose from, you're sure to find one that suits you.
