SAFETY

Colorado Crew Cab Long Box LT
in Cyber Gray Metallic with
available features.

OFFERING THE MOST ADVANCED SAFETY PACKAGE OF ANY MIDSIZE PICKUP.

WE'VE GOT YOUR BACK. AND EVERYTHING ELSE.

A comprehensive package of available innovative driver assist technologies use strategically located cameras to help warn you of potential risks on the road – or even in a parking lot.

AVAILABLE SAFETY PACKAGE.

This package, available on LT models, includes Lane Departure Warning and Forward Collision Alert. A rear vision camera is standard on all models. This safety technology is unmatched by any competitor.

LANE DEPARTURE WARNING.

If you unintentionally change lanes without a turn signal, this available camera-based system sends an alert. The camera, mounted near the inside rearview mirror, reads traffic lane markings when identifiable and provides audible and visual alerts.

FORWARD COLLISION ALERT.

This available feature continually monitors how close your vehicle is to the vehicle in front of you. If the system determines that a front-end collision with a detected vehicle is imminent, it alerts the driver to a potential crash. It also warns the driver if their Colorado is following a detected vehicle much too closely.

STABILITRAK WITH TRACTION CONTROL.

The advanced StabiliTrak® Electronic Stability Control System with rollover mitigation works in conjunction with standard ABS and Traction Control.

SIX AIR BAGS.

Every 2016 Colorado offers six standard air bags! Sensors determine how many air bags deploy – including side air bags for the driver and front passenger.

HIGH-STRENGTH STEEL FRAME.

The ladder-type frame is made from 83% high-strength steel and ultra-high-strength steel for enhanced occupant protection and reduced mass.

ROLL-FORMED STEEL PICKUP BOX.

Colorado features an exclusive roll-formed steel pickup box with advanced high-strength steel, which is stronger and lighter than traditional stamped-steel designs.

SAFETY STARTS WITH YOU.

Safety features are no substitute for the driver's responsibility to operate the vehicle in a safe manner. The driver should remain attentive to traffic, surroundings and road conditions at all times. Read the Colorado Owner's Manual for more important safety information.

¹ A NOTE ON CHILD SAFETY: Always use safety belts and the correct child restraint for your child's age and size, even with air bags. Even in vehicles equipped with the Passenger Sensing System, children are safer when properly secured in a rear seat in the appropriate infant, child or booster seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with an active frontal air bag. See the Owner's Manual and the child safety seat instructions for more safety information.
