

SS 2016

CHEVROLET

SS in Phantom Black Metallic
with available features.

A LEGACY HAS BEEN ESTABLISHED.

Chevrolet SS is the sophisticated performance sedan with an acclaimed global pedigree.

The 415-horsepower LS3 V8 is matched to the 6-speed paddle-shift automatic or the available 6-speed manual transmission. And the new refined look takes SS temptation to even hotter levels. LED front signature lighting and redesigned front fascia add mysterious allure. Functional hood vents and Brembo® brakes with new red calipers make an emphatic performance statement.

It's not just world-class. Chevrolet SS is in a powerful class of one.

AN EXQUISITE BALANCE OF PERFORMANCE AND LUXURY.

- 1. Quad-tipped dual-mode exhaust adds to an aggressive look.*
- 2. New Ultra Bright machined-face 19-inch aluminum wheels with massive Brembo® brake calipers in red catch the eye while offering superior control.*
- 3. LED front signature lighting enhances the iconic design, and the redesigned front fascia with lower openings provides improved cooling while reducing aerodynamic lift.*

1 Do not use summer-only tires in winter conditions, as it would adversely affect vehicle safety, performance and durability. Use only GM-approved tire and wheel combinations. Unapproved combinations may change the vehicle's performance characteristics. For important tire and wheel information, go to gmaccessorieszone.com or see your dealer.

with available features.

POISED PERFORMER. With perfectly sculpted proportions, the redesigned front fascia with newly added functional ducts provides improved engine cooling and reduced aerodynamic drag. And, if that isn't enough, the quad-tipped dual-mode exhaust takes the intensity up a notch.

ATHLETIC STANCE. With new Ultra Bright machined-face 19-inch aluminum wheels wrapped in summer-only performance tires, SS has the refined agility of a tuned sport sedan. Brembo brakes with impressive calipers, now in red, offer exceptional control and stopping power.

ILLUMINATING DETAIL. New signature LED daytime running lamps are paired with standard high-intensity discharge headlamps. Forward-looking ambient light sensors are included for more rapid automatic headlamp activation.

SS in Silver Ice Metallic
with available features.

LS3 V8. It powered the C6 Corvette, and is one of the great V8 engines of the modern era. Clearly, the 415-horsepower 6.2L small block V8 separates SS from any V6-powered would-be competitor.

ZERO TO 60 IN 4.7 SECONDS. With a 6-speed automatic transmission, limited-slip rear differential and Traction Control, SS will rush from 0 to 60 mph before you finish this sentence.

STREET CAR/RACE CAR. The production SS makes an authentic connection – it is the only car with the same rear-wheel-drive small block V8 configuration as its NASCAR® sibling.

ENTHUSIAST'S DILEMMA: TAPSHIFT 6-SPEED AUTOMATIC OR 6-SPEED MANUAL.

-
1. Corvette inspired 6.2L small block V8 delivers 415 horsepower and 415 lb.-ft. of torque.
 2. Quad-tipped dual-mode exhaust growls with an intensity that will make your heart race.
 3. The available 6-speed manual transmission offers a connected driving experience and is the perfect complement to the 6.2L V8 engine.

“A brilliant rear-wheel-drive sports sedan.”

– Yahoo.com

A ROBUST FOUNDATION. The backbone of the SS sedan is its ultra-high-strength steel structure. The extensive use of high-strength aluminum components enhances handling and contributes to the solid, confident feel.

SPORT-TUNED SUSPENSION.

The dynamic SS driving experience is the result of intensive racetrack testing. The Sport-Tuned suspension combines

with variable-assist Electric Power Steering and a near perfect 50/50 weight distribution for optimal handling.

BREMBO BRAKES ALL AROUND. SS offers Brembo® 4-piston disc brakes with 2-piece aluminum calipers and 14-inch rotors on all four wheels. Electronic Brake Assist senses how hard and fast you hit the brake pedal and provides assistance if necessary.

MAGNETIC SELECTIVE RIDE CONTROL. With Magnetic Selective Ride Control™ – the world’s fastest-reacting damping system – SS has the agility of a performance sedan and the refined ride of a luxury car. This standard system offers three selectable modes: Tour, Sport and Performance.

NEW DUAL-MODE EXHAUST. Hear that growl? That’s the sound of SS. Translation: Don’t provoke me. The new standard quad-tipped dual-mode exhaust raises the aggression level as you shift the driving mode from Tour to Sport to Performance.

INTERIOR DESIGN

PREMIUM DETAILS. The instrument panel includes an integrated center stack that combines a standard navigation system, infotainment, climate and other controls – conveniently putting everything you need within arm’s reach. And, visually, it is stunning, with exquisitely detailed stitching and distinctive satin and chrome finishes adorning a black background.

FULL-SIZE COMFORT. Leather-appointed performance seats with firm bolsters, sueded microfiber inserts and lumbar support keep you firmly in place, while twin needle-and-deck stitching offers a luxurious look. The 10-way power seats are heated and ventilated, allowing customization for different driver preferences. With seating for five plus 39.7 inches of leg room for rear-seat passengers, SS is – unquestionably – a full-size performance sedan.

COCKPIT CONSULTANT. A color screen in the center of the instrument cluster displays vehicle and trip information, as well as warnings and messages, while informing you of your speed, fuel economy statistics, navigation cues, whether or not rear passengers have their safety belts buckled, and more.

¹ MyLink functionality varies by model. Full functionality requires compatible Bluetooth and smartphone, and USB connectivity for some devices. MyLink on SS does not include CD player. Map coverage available in the United States, Puerto Rico and Canada. ² Data plan rates apply. ³ Go to my.chevrolet.com/learn to find out which phones are compatible with the vehicle. ⁴ Requires Chevrolet MyLink and compatible iPhone running iOS 6 or later. ⁵ For more information about NavTraffic, visit siriusxm.com/navtraffic. ⁶ Requires a compatible mobile device, active OnStar service and data plan. 4G LTE service available in select markets. iPhone is a trademark of Apple Inc., registered in the U.S. and other countries.

CHEVROLET MYLINK¹ Equipped with a newly designed radio and standard GPS-based navigation, the system's graphic interface features intuitive controls and a large, 8-inch diagonal high-resolution color touch-screen. Listen to music on Pandora[®] Internet Radio,² and enjoy hands-free interaction with Bluetooth[®] wireless technology.³

SIRI EYES FREE. Chevrolet is the first vehicle manufacturer to offer Siri Eyes Free⁴ to select iPhone[®] users. The system allows limited hands-free interaction when you really need it for important messages.

SIRIUSXM SATELLITE RADIO. Featuring 150 channels of commercial-free music, talk, comedy, news, family programming and more, SiriusXM⁵ offers something for everyone. Enjoy NavTraffic and Travel Link with a standard 12-month subscription of SiriusXM⁵

INTERNET IN YOUR SS. After initial setup, whenever your SS is on, the available OnStar 4G LTE Wi-Fi[®] hotspot⁶ is automatically on too. It includes a data trial for 3 months or 3 GB (whichever comes first). It offers great signal quality and bandwidth for up to seven devices⁶ Additionally, the OnStar Guidance Plan⁷ is standard for six months.

INFORMATION INTELLIGENTLY DISPLAYED.

1. Automatic Parking Assist provides hands-free parking by accurately detecting a space and taking over the steering to neatly maneuver your SS into an available space.
2. Color Head-Up Display (HUD) projects vital information, such as speed and turn-by-turn navigation, directly into your field of vision on the windshield.
3. Stay connected with the intuitive Chevrolet MyLink¹ infotainment system.

¹ MyLink functionality varies by model. Full functionality requires compatible Bluetooth and smartphone, and USB connectivity for some devices. MyLink on SS does not include CD player. Map coverage available in the United States, Puerto Rico and Canada.

SAFETY

FORWARD COLLISION ALERT.

This feature continually monitors how close your vehicle is to the vehicle in front of you. If the system determines that a front-end collision with a detected vehicle is imminent, it alerts the driver to a potential crash. It also warns the driver if their SS is following a detected vehicle much too closely.

SIDE BLIND ZONE ALERT.

This feature uses radar sensors on both sides of the vehicle to help “look” for other vehicles in your side blind zone areas and indicates their presence with LED-lit symbols in the exterior mirrors.

REAR CROSS TRAFFIC ALERT.

Using the same radar sensors as the Side Blind Zone Alert feature, Rear Cross Traffic Alert helps alert drivers to approaching traffic when backing up. If an approaching vehicle is detected, the driver is warned with visual and audible alerts.

LANE DEPARTURE WARNING.

If you unintentionally change lanes without a turn signal, this camera-based system sends an alert. The camera, mounted near the inside rearview mirror, reads traffic lane markings when identifiable and provides audible and visual alerts.

AUTOMATIC PARKING ASSIST.

This ingenious system enables the vehicle to detect viable parking spaces, determine approach angles and take over the steering to neatly maneuver into an available space. Throttle, brake and gear selection input is still required by the driver, but the vehicle steers itself into any suitable-sized parallel or perpendicular (90-degree) parking spot.

REAR VISION CAMERA. When traveling in reverse at low speeds, the rear vision camera allows you to see stationary objects behind you.

SAFETY STARTS WITH YOU.

Safety features are no substitute for the driver's responsibility to operate the vehicle in a safe manner. The driver should remain attentive to traffic, surroundings and road conditions at all times. Read the SS Owner's Manual for more important safety information.
